

Transmet Cast Zinc Shot vs. Zinc Cut Wire

A Side-By-Side Comparison Over Two Months

Two identical blast machines running side-by-side.
 Machine 1 (red) is running 0.030" Zinc Cut Wire
 Machine 2 (green) is running RSZ-750-ZA4 Cast Zinc Shot.
 Machine 2 started with cut wire and cast zinc was added as needed.
Note lower daily consumption as cut wire was depleted.
